1. Maximum wireless signal rate based on IEEE standard 802.11g specifications. Actual data throughput will vary. Network conditions and environmental factors, including volume of network traffic, building materials and construction, and network overhead lower actual data throughput rate and adversely affect the range.
2. The devices described herein are in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.
Product specifications, size and shape are subject to change without notice, and actual product appearance may differ from that depicted on the packaging.
